

The Council of CPM is seeking nominations for Council and committee positions. We are looking for broad representation on the Council and committees, from all aspects of the profession - new grads, experienced grads, rural and urban areas, private practice as well as facility based physiotherapists.

There are many benefits associated with being on the Council and committees. You will learn about policy making, self-regulation, what's happening nationally and where the profession is headed. You can be involved as the Council undertakes several important initiatives, such as implementing provisions of the new *Physiotherapists Act* including continuing competency program and practice audits. Being a Council or Committee member provides you with the opportunity to learn from the leaders in the profession. If you are working in a Program Management setting, this is an opportunity to stay in touch with the profession and other physiotherapists.

YOU can make a difference to the future direction of physiotherapy in this province. If you are concerned about health care and physiotherapy, standards of practice or any issue that affects our profession, **NOW** is the time to focus your energy in this direction. Experience and knowledge about these issues are not required - only a desire to learn.

If you have any questions, please do not hesitate to call me at the office at 287-8502, Fax at 474-2506 or e-mail: info@manitobaphysio.com
