

REGISTRATION AND LICENSING DIRECTION

Current and updated as of: January 16, 2014

3.11 Membership in Good Standing

Policy:

For the purposes the Regulations 4(1)(a)(f), the Council considers proof of membership in good standing to be a declaration by the last two physiotherapy regulatory bodies with which an applicant was most recently registered. The declaration attests to the fact that the applicant was registered for a period of time and during that time, was or was not the subject of an investigation or disciplinary action. The declaration also covers pending investigations.

The applicant will be required to sign an agreement to authorize the previous or current regulatory body to release the requested information.

The information must be provided by an official from the regulatory college, signed, sealed and dated. The information must be provided directly to CPM from the sending regulatory body.

A professional association is not considered to be a regulatory body, as a professional association is not usually legally empowered to register members.
